Burnout While Working Michael P. Leiter, Cary L. Cooper, 2022-12-27 This book offers an extensive look into the ways living through the COVID 19 pandemic has deepened our understanding of the crises people experience in their relationships with work Leading experts explore burnout as an occupational phenomenon that arises through mismatches between workplace and individuals on the day to day patterns in work life By disrupting where when and how people worked pandemic measures upset the delicate balances in place regarding core areas of work life Chapters examine the profound implications of social distancing on the quality and frequency of social encounters among colleagues with management and with clientele The book covers a variety of occupational groups such as those in the healthcare and education sectors and demonstrates the advantages and strains that come with working from home The authors also consider the broader social context of working through the pandemic regarding risks and rewards for essential workers By focusing on changes in

organisational structures policies and practices this book looks at effective ways forward in both recovering from this pandemic and preparing for further workplace disruptions A wide audience of students and researchers in psychology management business healthcare and social sciences as well as policy makers in government and professional organisations will benefit from this detailed insight into the ways COVID 19 has affected contemporary work attitudes and practices
