Tips and Tricks To Working Online Kristi Griffin,2021-03-15

Working online or remotely has become a necessity for many this year. However, this is just the start of a larger trend. It is predicted that by 2027 the majority of the US workforce will be working remotely online. The office work lifestyle is familiar to most people: get dressed in your company clothes, commute to work, work in a room with a few other people, take scheduled breaks, et cetera. But remote workers at online jobs don't encounter most of those situations. They don't need to get dressed in company attire or commute to work. But it can be difficult for online workers to navigate working away from the office. Best practices are not as well defined because online work, at least in its current form, is still relatively new, so it can be difficult to know how you should act when working from home. There is no single formula for how to become an efficient online worker. Everyone will work at different times and have different tips on how to make the most of their time. Indeed, one of the major benefits of remote work is the flexibility it affords. Working from home means that you can adjust your schedule to suit your commitments and your timetable as it is in your hands now. However, this means that you need to learn what works best for you when managing your priorities and time, and everyone is slightly different. That said, there are a few common practices you can expect to use as a remote worker. In this guide, we've compiled the best practices for online remote workers, ranging from how to participate in meetings to how you can find an online job as a remote worker. If you're working from home or aspire to do so, this guide is for you.

Seminar paper from the year 2022 in the subject Leadership and Human Resources Miscellaneous grade 1.0 Johannes Gutenberg University Mainz course Advanced Topics in Management and Digital Transformation language English abstract
In this systematic literature review, we analysed the impact of remote working on employees' psychological well-being with the aim to identify essential job and personal resources regarding remote working and to develop recommendations for organizations. A search was undertaken in two databases: Web of Science and Google Scholar. In this review, a total of 365 papers were identified and 18 quantitative

seven qualitative and one mixed method studies were included. Workplaces have a major influence on employees' quality of life and the ability to impact their well-being. The altered working conditions resulted from the digitalization are affecting employees' well-being. Additionally, COVID-19 has transformed the approach to the concept of work and an important aspect that disruptively emerged during the pandemic is remote working. Decisions on how to promote employees' well-being whilst the new work arrangements need to be based on available evidence to optimise employees' outcomes.
