up to you to interpret it for there are many interpretations possible Some of these might point to the David Bowie classic Space Oddity and the fact that at last many of us in our societies are once again able to step out of the confinement imposed by the pandemic to breath freely again Another interpretation hand in hand with the snappy front cover image might refer to Andy Warhol s iconic pop art consumerism or simply the tastiness of the contents the tin cans hold a little like the insights in this magazine if I dare say And lastly the shades of green to the cans give the message that our consuming society might well contain a new and more responsible sustainable taste to it In any case we hope you download this Global Voice 21 issue open it up and consume its insights with immoderation Enjoy your reading **Federal Personnel Guide 2003** Lisa A.
