*Competence-based Vocational and Professional Education* Martin Mulder, 2016-09-08 This book presents a comprehensive overview of extant literature on competence based vocational and professional education since the introduction of the competence concept in the 1950s To structure the field the book distinguishes between three approaches to defining competence based on 1 functional behaviourism 2 integrated occupationalism and 3 situated professionalism It also distinguishes between two ways of operationalizing competence 1 behaviour oriented generic and 2 task oriented specific competence Lastly it identifies three kinds of competencies related to 1 specific activities 2 known jobs and 3 the unknown future Competence for the unknown future must receive more attention as our world is rapidly evolving and there are many global challenges which call for innovation and a profound transformation of policies and practices The book presents a range of different approaches to competence based education and demonstrates that competence based education is a worldwide innovation which is institutionalized in various ways It presents the major theories and policies specific components of educational systems such as recognition accreditation modelling and assessment and developments in discipline oriented and transversal competence domains The book concludes by synthesizing the different perspectives with the intention to contribute to further improving vocational and professional education policy and practice Joao Santos Deputy Head of Unit C5 Vocational Training and Adult Education Directorate General for Employment Social Affairs and Inclusion European Commission This comprehensive work

on competence based education led by Martin Mulder provides an excellent and timely contribution to the current debate on a New Skills Agenda for Europe and the challenge of bridging the employment and education and training worlds closer together. This book will influence our work aimed at improving the relevance of vocational education to support initial and continuing vocational education and training policy and practice aimed at strengthening the key competencies for the 21st century. Prof Dr Reinhold Weiss, Deputy President and Head of the Research Federal Institute for Vocational Education and Training BIBB Bonn, Germany. This book illustrates that the idea and concept of competence is not only a buzzword in educational debates but key to innovative pedagogical thinking as well as educational practice. Prof Dr Johanna Lasonen, College of Education, University of South Florida, Tampa, USA. Competence based Vocational and Professional Education is one of the most important multi-disciplinary book in education and training. This path-breaking book offers a timely rich and global perspective on the field. The book is a good resource for practitioners, policymakers and researchers. Measuring and Developing Professional Competences in COMET Felix Rauner, 2021-08-27. This book is a detailed manual for the implementation of competence diagnostics in the field of vocational training. With the COMET competence model, both conceptual competences as well as practical skills are recorded and evaluated. The manual guides through all methodological steps including the preparation and implementation of tests, cross and longitudinal studies, the development of context analyses and measurement methods for the test motivation. The focus of the final chapter is the application of the COMET procedure for the design, organisation and evaluation of vocational education and training processes. The Potential of the Comet Competence Diagnostic Model for the Assessment and Development of Occupational Competence and Commitment in Technical Vocational Education and Training Patricia Ammann, 2016. Unleashing the potential Marope, P.T.M., Chakroun, B., Holmes, K.P., 2015-05-26. UNESCO has recently published the third volume of its Education on the Move series, a series dedicated to the analysis of key trends in education with the hope of inspiring dialogue among policy makers, educators and other key stakeholders on the challenges of education for tomorrow. The latest publication entitled *Unleashing the Potential: Transforming Technical and Vocational Education and Training* is focused entirely on issues related to technical and vocational education and training (TVET). It takes stock of the steadily increasing demands and expectations on TVET systems around the globe and presents recent policy trends in the field of TVET. In their analysis, the authors provide insights into what it takes to unleash the potential of TVET systems around the world. They propose an integrated analytical approach that takes into consideration such factors as economic growth, social equity and issues related to sustainability so that TVET can contribute more effectively to contemporary policy issues such as youth unemployment, gender disparities and climate change. Overall, the book calls for a transformation of TVET systems to enable them to respond to the demands of their contexts. This transformation should enable TVET systems to acquire agility to stay current and responsive to the rapidly changing demands of the twenty-first century.
