Compliance Management Nitish Singh, Thomas J. Bussen, 2015-03-10 This practical guide shows how to build an effective compliance and ethics program that will lower a business's risks and improve productivity. Research increasingly supports the notion that ethical compliant businesses see increased productivity across a range of measurements. This practical guide tells business professionals, business and law students and other interested parties exactly how that goal can be achieved. The book covers an extensive range of ethics compliant laws and regulations impacting businesses today and identifies critical factors for successful compliance programs. Going well beyond works that speak in general terms about compliance based actions, this unique volume delves into details about specific regulatory issues and the steps that can be taken to mitigate risk. The first half of the book shares general guidelines for creating or improving internal compliance and ethics programs. The second half identifies specific high risk regulatory areas, provides an overview of relevant laws and sets forth best practices specific to the regulations discussed. By providing a simplified understanding of compliance with laws related to issues such as antitrust, international business, wages and labor, Health Insurance Portability and Accountability Act (HIPAA) and health care, the environment and more, the guide offers readers the tools necessary to improve an existing compliance program or create a new program where none has existed before.

Enlightened Self-Interest Thomas J. Bussen, Henry Biggs, Timothy Bono, 2024-04-01 Insights into a compassionate alternative to a ruthlessly self interested capitalist culture Societally sanctioned competition for money power and fame promotes selfishness personal alienation and widespread inequality especially in market oriented economies Yet many of those engaging in this competitive individualism the competition for rewards and limited resources

yearn to act directly to promote a more civil equitable and sustainable society Enlightened Self Interest offers evidence based insights into the societal and individual consequences of this cultural practice and an actionable alternative to it This meticulously researched and empirically rooted reexamination of hypercompetition and zero sum thinking presents inspiring examples of people who have reclaimed their own lives by contributing to a more civil equitable and sustainable society They model the vision of enlightened self interest merging self interest with other interests in pursuit of the common good resulting in widely shared benefits Enlightened Self Interest provides a compelling case for incremental change and a series of actionable recommendations to jump start a personal transition and to become part of a collective radical evolution *The New EEO-1 Report: 5 Steps to Ensure Compliance: Special Report* , **Corporate Compliance and Conformity** Petter Gottschalk,2023-03-10 Traditionally control in organizations is concerned with top down approaches where executives attempt to direct their employees attention behaviors and performance to align with the organization s goals and objectives This book takes a new approach by turning the problem of control upside down as it focuses on control of executives who find white collar crime convenient The bottom up approach to executive compliance focuses on organizational measures to make white collar crime less convenient for potential offenders Rather than focusing on the regulatory formalities and staged procedures of compliance and audits the book emphasizes the organizational challenges involved in compliance work when trusted corporate officials exhibit deviant behavior refining and advancing knowledge in this field by reference to contemporary international case studies and associated original evaluative research The themes and cases covered are carefully selected to provide the reader with an insight into professional conduct and procedural practice the organization of corporate compliance success failure and corruption with the theory of convenience placed at the fore It is the bottom up approach by application of convenience theory that makes the proposed book unique compared to other books on corporate compliance This book is a valuable resource for scholars and upper level students researching and studying in the areas of business administration organizational behavior corporate and white collar crime as well as business ethics and auditing
