Disability & the Politics of Education Susan Lynn Gabel, Scot Danforth, 2008 Disability and the Politics of Education An International Reader is a rich resource that deals comprehensively with the many aspects of the complex topic of disability studies in education For nearly two decades global attention has been given to education as a human right through global initiatives such as Education for All EFA and the Salamanca Statement Yet according to UNESCO reaching the goals of EFA remains one of the most daunting challenges facing the global community Today millions of the world's disabled children cannot obtain a basic childhood education particularly in countries with limited resources Even in the wealthiest countries many disabled children and youth are educationally segregated from the nondisabled particularly if they are labeled with significant cognitive impairment International agencies such as the United Nations and the World Bank have generated funds for educational development but unfortunately these funds are administered with the assumption that west is best thereby urging developing countries to mimic educational policies in the United States and the United Kingdom in order to prove their aid worthiness This McDonaldization of education reproduces the labeling resource allocation and social dynamics long criticized in disability studies The authors in this volume explore these subjects and other complexities of disability and the politics of education In doing so they demonstrate the importance and usefulness of international perspectives and comparative approaches **Disability/postmodernity** Mairian Corker, Tom Shakespeare, 2002 This text looks at the study of disability within the context of the postmodern world of the 21st century The authors aim to demystify the concept of postmodernity and to suggest ways in which it fosters a holistic approach to the study of disability

Implementing the Social Model of Disability Colin Barnes, Geoffrey Mercer, 2004 *Agora IX* European Centre for the Development of Vocational Training, 2003 *Agora IX* cast a critical eye on the paradoxes of the successes achieved by alternative modes of training Through this success they help filter out more and more young people and less young people

who have experienced school failure and help create a hard core of those who are left by the wayside How are we to fight school failure and allow every citizen access to the key skills considered indispensable in our society Agora IX may not have found a miracle cure but it did stress the need to mobilise all intervention partners rather than actors considering that the educational system now obviously goes beyond the school system Lifelong learning should allow everyone to learn at their own speed What remains to be done is to create the conditions for this learning and find the means to motivate citizens to pursue it

The Pursuit of Sexual Intimacy for Men with Cerebral Palsy Russell P. Shuttleworth, 2000 **Disability Rights Law and Policy** Mary Lou Breslin, Silvia Yee, 2002 Papers conceived and commissioned by the Disability Rights Education and Defense Fund DREDF T p **Integrating Disability Content in Social Work Education** Stephen F. Gilson, 2002 Exceptional Child Education Resources , 1999 **Disability Studies in India** G. N. Karna, 2001 No one can deny the fact that this is a dearth of books on disability and on those who are physically challenged This research based volume fulfils this vacuum A pioneering work on the subject and a revolutionary step in the discipline This book is bound to win laurels from all scholars students and the general readers **Accessible Tourism** Dimitrios Buhalis, Simon Darcy, 2011 Inclusion disability an ageing population and tourism are increasingly important areas of study due to their implications for both tourism demand and supply This book therefore sets out to explore and document the current theoretical approaches foundations and issues in the study of accessible tourism In drawing together the contributions to this volume the editors have applied broader social constructionist approaches to understanding the accessible tourism phenomena Accessible tourism as with any area of academic study is an evolving field of academic research and industry practice As with other areas of tourism the field is multidisciplinary and is influenced by various disciplines including geography disability studies economics public policy psychology and marketing *Social Theory and Practice* , 2001 **Journal of Disability Policy Studies** , 2004 Understanding Conflict and War: The dynamic psychological field Rudolph J.
