Communicating Affection Kory Floyd, 2006-05-08 Few behavioral processes are more central to the development and maintenance of intimate relationships than the communication of affection. Indeed, affectionate expressions often initiate and accelerate relational development. By contrast, their absence in established relationships frequently coincides with relational deterioration. This text explores the scientific research on affection exchange to emerge from the disciplines of communication, social psychology, family studies, psychophysiology, anthropology, and nursing. A new comprehensive theory of human affection exchange is offered and its merits relative to existing theories are explored. *Affectionate Communication in Close Relationships* Kory Floyd, 2019 Reviews and critiques empirical research on affectionate communication in close relationships and offers questions for future study.
