Exploring Chemistry overs the standard topics for the nonmajors course in the typical order but each chapter unfolds in the
context of a single case study that helps students connect what they are learning to real life situations For example students
work through the often difficult topics of molecular structure gas laws and organic chemistry by learning about the
development of powerful new chemotherapy drugs new technologies for screening airline passengers and the creation of
biodegradable biopolymers It s the same same case driven approach that Johll uses in his acclaimed Investigating Chemistry
now in its Third Edition but Exploring Chemistry goes beyond the other book s specific focus on examples from forensic
science to use real life stories from cooking athletics genetics green chemistry and more **Spectrum Test Prep, Grade 3**
